ELIOT AND JORDAN LEADERS

NEW YORK, Feb. Il -The colleton of the 20,000,000 children of the United States in an army of helpfulness to releve suffering both in this country and Europe is the surpose of a movement which is announced here by a committee of educators of unition-wide reputation It includes Charten W. Ellot, presiden emeritus of Harvard university, David Starr Jordan, president of the National Educational association, and Richard McLaurin, president of the Massachusetts

Institute of Technology.

It is the belief of those interested in the plan that evil influences in the schools of the United States are arising from the war. 'Influences of lying, hatred and murder are moulding the lives of America's 20 000 000 children," says an announdement of the committee's plans which tend to emish out truth, justice and love. As a nation we are evading our responsibilities in not seriously at-tempting to counteract these evil in-

Cannot Hide War.

"In many of our schools we even forbid all discussion of the war. We cannot however, hide this war from our children nor keep its destructive influences from their lives

With a nation-wide relief mevement our children we can turn their mi from destructive murder to helpful lifegiving and build on the terrible need the atrongest, most helpful ruce of ruce and women the world has ever known.

The school children are organised, and can begin immediately on relief work. They can raise at least \$1,000,000 without burden on any one as the funds will be raised in small sums—the people's gift through their children. They can make millions of needed articles of clothing and other things. Working shoulder to der to effect the influences rganised murderous warfare they will feel the quickening helpful impulse of their great life-giving organization a mighty impulse in their lives and a great example to the world. They will do mor to establish international peace and good will based on kindly acts than years of diplomacy and peace conferences."

Ench Child to Give.

The plan announced is that each child sarn or make what he gives, or give from what he her, that he may feel he has worked or encrificed to help. The fund is to be known as the "Children of America's Fund." which heards of cou-cation, superintendents, tonchers and others are urged to address at Oak Hitt. Newton Center, Mann, for Working de-

One half the fund is to be used to re-lieve total suffering and will be dis-tributed through home charities as far as possible. The other half will be disas possible. The other half will be dis-tributed to the sufferers in Europe by the astional committee. Arrangements have been made by the free transportation to Belgium of all gifts of nonperishable food or new clothing in packages weighing

or new clothing in packages weighing twenty pounds or more.

It is announced that the plane for carrying out the movement have been based on suggestions received from over 5,000 practical educators. They call for tree use of the public school buildings for constituinments to raise funds; the constituents of the manufacture of useful sitts by bors in manufacture of useful sitts by bors in manufacture, of useful sitts by bors in manufacture, of useful sitts by bors in manufacture of useful sitts and one day a week devoted by all girla in sewing as a part of their school work.

WAR MARES IT MUCH MORE-80 ligerent nations, Mr. Page, the Amanusation, has occasion to make many visits to file Edward Grey.

## OMAHA VALUES ARE BEST Favorable Report

So Declares J. W. Rasp of Rasp Bros., in Speaking of Real Estate Investments.

#### OPPORTUNITIES NOW AT HAND

"The best investment on earth is some of the earth, itself, Right now is the time," says J. W. Rasp of Rasp Bros. Wilfarn McCauley of South Omaha, a Wilfarn McCauley of South Omaha, a form at 10 maha is the place. Ornsha has the geographical location, surrounded on all sides by millions of arres of our nation's richest sell. Work together, boost and advertise Omaha first by patroning home industry. Why buy Kanass City, St. Louis or Chicago manufactured products, when you can buy the same time, just as good or better, that is Omaha made at the name price? Let us keep all the money possible right here in Omaha and get as much more to come here as is in our power.

"Prosperity has just returned from its long wacation and is now ready for business, are your? Ornsha's population should increase 50,000 in the next three years, and will if we work together and advertise. Records show that each of the four or five downtown business properties that have been sold or leased in the last month or two at a hair million or more each, has been the result of a 25 to 90 per cent increase in value each year, and the seales and values are not out of the four or five downtown business properties that have been sold or leased in the assume that are also lasted in handling farm property are insteaded in the last month or two at a hair million or more each, has been the result of a 25 to 90 per cent increase in value each year, and these sales and values are not out of the ordinary for such transactions as these will be resultably soft in the basis, known, the pathy still in the basis, known, the pathy still in the basis, known, as the see will be resultably softed in the pathy still in the basis, known, as the see will be resultably stored in the pathy still in the basis, known, as the pathy still in the basis, known, as the see will be resultably stored in the pathy still in the basis, known, as the path of the pathy still in the basis, known, as the path of the path the pathy still in the basis, known, as the path of the path the pathy still in the basis, known, as the path the path the pathy still in the basis, known, as the path the path th Right here in Omaha is the place.

69 per cent increase in value each year and these sales and values are not out of the ordinary for such transactions as these will be regularly reported in the as house roll 262, which provides for a 53 years just shead of us.

Offers Great Opportunities. it. Others will, and outside investors this bill. will soon be calling on us.

"Invest now. Buy a home now, if not for cash, on easy terms. It is said that a saver is nearly always a debtor. Buy a home or investment on easy terms and see how easy it will be to make additiona savings to meet your contracted debts,"

### January Building

A mitigation of the unfavorable building statement for January may properly be made. For two reasons the present actual building conditions are less unent-infactory thun the statistics would indicate. In the first place many architects. are engaged on plans for spring work, permits for which have not yet been sought. Office work is, therefore, more active than that of the permits issued. In the second pince current construction in-cludes much work, the permits for which were secured several months ago, the actual work at that time having been leferred on account of an unfavorable toy market.

Official reports of the building permits asued during the month of January in seventy-five cities, received by the American Contractor, Chicago, show a total January, 1914, a decrease of 25 per cent.
Of the cities twenty show gains and fiftyfive losses. New Tork City makes the
spiendid gain of 25 per cent, only two of,
its five boroughs showing losses. At Chicoast the comparative loss is only 9 per
cent. Among the winners in the comparlison, together with percentages of gains
are the following: Albany, 125, Montchair,
182: Paterson, 147: Schenectady, 2,192:
Spokane, 171; Springfield, Ill., 136; Syracuse, 166; Toledo, 129; Troy, 416; Utica,
162. Details are as follows:

#### **ESCAPES OF BATTLE LEADERS**

Commanding Officers Who Seemed to Possess More Than

There is a story told of an old veteran of the First Napoleon who lived until glass eye, a silver palate, a complete set of false toeth and a silver plate on the top of his head, and yet died peace-fully in his bed. Compared with such men the proverbial nine-lived cat is nowhere. As one reads the stories of great ware of the past the manner in which farnous generals have played touch and so with death is little short of miracu-

The wonderful escapes of Napoleon and Wellington were proverbial. Though bullets grazed them and riddled thatr clothes, and both had horses shot under them, yet both passed through a life of battle and danger with two or three slight wounds aplece. Marshal Ney, the bravest of the brave,

was continuously fighting for twentyis eight years, yet he excaped with only a
few slight wounds to meet a traitor's
doom at the hands of the bourbon king of He headed countless charges, had five horses shot under him in a single battle. OF GOLD AND SILVER COINS eagerty courted death when leading the Old Guard at Waterloo, and yet was never seriously wounded.
